Data Analyst

Profile Summary

Aspiring Data Analyst with a strong foundation in Excel, Power Query, and data visualization. Currently enrolled in the Digital Egypt Pioneers Initiative (6-month track) and participating in a college-led data analysis training. Actively involved in student activities as Vice Head of PR & FR Circle and a member of the Data Science Circle at CIS Team. Familiar with Python, SQL, and basic machine learning concepts, and passionate about turning raw data into actionable insights.

Education

Mansoura University – Faculty of Computers and Information Science
Bachelor's Degree in Computer Science (Year 3)
Expected Graduation: 2027

Trainings

Digital Egypt Pioneers Initiative – Data Analysis Track *Jul 2025 – Present*

- 6-month comprehensive training including technical and soft skills
- Hands-on experience with Excel, Pivot Tables, Power Query, data cleaning, and dashboards

Data Analysis Training – FCIS *Aug 2025 – Present*

- Practical training covering data analysis concepts and tools (in progress)

Experience & Volunteering

Vice Head – PR & FR Circle, CIS Team *Oct 2024 – Present*

- Led communication and fundraising efforts within the student team
- Managed external outreach and contributed to event organization and visibility

Member – Data Science Circle, CIS Team *Oct 2024 – Present*

- Participated in workshops and technical sessions on Python, data cleaning, and visualization
- Gained exposure to machine learning basics and data analysis projects

Projects

Excel Sales Dashboard *Jul 2025*

- Built an interactive dashboard using Pivot Tables and charts to visualize sales data
- Cleaned and organized raw data using Power Query and Excel functions
- Highlighted key performance metrics for better decision-making

Python Data Cleaning Script *May 2025*

- Developed a Python script to clean and preprocess messy datasets
- Applied functions from Pandas and Matplotlib to clean and visualize data

Technical Skills

- **Data Analysis Tools:** Excel, Power Query, Power Pivot
- **Programming:** Python, C#, SQL, JavaScript, HTML/CSS, Assembly
- **Databases:** SQL, basic database design
- **Other:** OOP, Cisco basics

Languages

- Arabic: Native
- English: Good
