PROFESSIONAL SUMMARY

Data analyst with hands-on experience in business intelligence and machine learning, built through the 6-month national DEPI Data Analytics program and multiple end-to-end projects. Delivers data cleaning, ETL pipelines, exploratory analysis, KPI dashboards (Power BI, Tableau, Excel), and predictive models deployed as Streamlit apps, using Python and SQL. Seeking a Data Analyst or Business Intelligence role (junior level; remote, hybrid, or on-site).

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript, C#

Data Analysis: Pandas, NumPy, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), ETL Pipelines

Business Intelligence: Power BI, DAX, Tableau, Microsoft Excel (Pivot Tables, Conditional Formatting), KPI Dashboards

Machine Learning: Scikit-learn, XGBoost, Feature Engineering, Classification, Regression, Predictive Modeling

Visualization: Matplotlib, Seaborn, Power BI, Tableau

Tools: Git, GitHub, Streamlit, Jupyter Notebook, Google Colab, VS Code

EXPERIENCE

Data Analyst Trainee
Jun 2025 - Dec 2025

Digital Egypt Pioneers Initiative (DEPI) - National Data Analytics Program

- Completed a 6-month government-backed data analytics program, applying Python, SQL, Excel, and Power BI to real-world business datasets across multiple industries.
- Built ETL pipelines covering data ingestion, cleaning, transformation, and loading into analytical models.
- Designed Power BI dashboards and reports tracking KPIs, revenue trends, and customer behavior to support business decisions.
- Worked in agile sprints and presented analytical findings to program mentors.

Data Analysis Trainee
Aug 2025 - Sep 2025

Faculty of Computer & Information Science - Mansoura University

- Trained in data processing, statistical analysis, EDA, and visualization using Excel and Python on structured business datasets.
- Applied data cleaning, exploratory analysis, and dashboard reporting techniques through hands-on projects.

Vice Head, PR & Fundraising Circle
2024 - 2025

CIS Team, Mansoura University

- Led external communications and sponsorship outreach for 8+ university events, securing partnerships with 10+ external organizations.
- Coordinated a cross-functional team of 15+ members, building leadership, negotiation, and project management skills.

PR Volunteer
2025 - Present

IEEE Mansoura Student Branch

- Support media presence, event promotion, and community outreach for the student branch.

Member, PR & Data Science Circles
2023 - 2024

CIS Team, Mansoura University

- Took part in 5+ campus activities across the Public Relations and Data Science circles, building foundational data analysis and teamwork skills.

PROJECTS

Customer Churn Prediction (graduation team project)
github.com/HagerElmalah/Customer_Churn_Dataset_Analysis

Python | SQL | XGBoost | Streamlit

- Led data analysis on 7,000+ customer records and engineered features to train an XGBoost classification model with 88% accuracy.
- Developed a Streamlit web app that scores churn probability in real time so business teams can identify at-risk customers.

Log-Out: Social Media Impact Analysis

github.com/HagerElmalah/Log-Out

Python | SQL | Power BI | EDA

- Analyzed the effect of social media use on the academic performance of 3,000 students, from ETL and EDA through to a 3-page interactive Power BI dashboard.
- Surfaced productivity and GPA correlations across demographic segments.

Energy Consumption Dashboard

github.com/HagerElmalah/Energy-Consumption-Project

Power BI | DAX

- Built a 3-page Power BI dashboard tracking water, electricity, and gas KPIs by city and year, using DAX measures and dynamic filters to identify cost-reduction opportunities.
- Reduced manual reporting time by 60% compared with the previous Excel-based process.

Sales Performance Dashboard

github.com/HagerElmalah/Sales-Performance-Dashboard

Tableau | Calculated Fields

- Designed an interactive Tableau dashboard analyzing sales by product line, region, and time period, with calculated fields, dynamic filters, and multi-sheet storytelling.

Excel Dashboards: Sales & Titanic

github.com/HagerElmalah/Titanic-Survival-Dashboard

Excel | Pivot Tables | KPIs

- Built two dashboards with pivot tables, KPI cards, dynamic charts, and conditional formatting; the Titanic analysis of 1,000+ passenger records showed survival rates of 74% for women vs 19% for men.
- Tracked 12 months of revenue trends and targets in the sales dashboard.

EDUCATION

B.Sc. in Computer Science, Artificial Intelligence Department

2023 - Expected 2027

Mansoura University, Egypt

CERTIFICATIONS

- **Data Analytics: Data Analyst Specialist** - Digital Egypt Pioneers Initiative (DEPI), Jun - Dec 2025
- **Data Analysis Using Excel, Power BI & SQL** - CCIC, Mansoura University, Aug - Sep 2025
- **DataCamp (Feb - Mar 2026):** Introduction to Data Literacy; Introduction to SQL; Intermediate SQL; Introduction to Python; Introduction to Power BI; Introduction to DAX in Power BI
